SKILLS

- Proficient in front-end languages and libraries, including HTML, CSS, JavaScript, and React.js
- Knowledge of back-end languages like Node.js and JavaScript frameworks such as Express.js
- Familiarity with databases like MongoDB, Mysql
- Understanding of web servers like Apache
- Knowledge of UI/UX design principles
- Solid foundation in Data Structures and Algorithms.
- Experience with RESTful APIs and integration patterns
- Basic knowledge of AWS cloud services such as EC2 and ECS
- Knowledge with Docker and CI/CD pipelines
- Experience with unit testing, specifically Jest
- Understanding of GKE (Google Kubernetes Engine)
- Knowledge of RethinkDB, PostgreSQL

CERTIFICATION

Great Learning

Front-end development May 2023
CSS Property May 2023
Javascript May 2023

Guvi

Python ISO 9001-27001 Aug 2023
AI for India 2.0 ,June 2023

Amazon Web Service

Basics of AWS Foundation ,June 2023

EDUCATION

BE (Mechatronics Engineering)

SNS College of Technology

2019-2023

8.5 CGPA

College project

User Management CRUD Operations Using Node.js, Express.js, and MongoDB

- Implemented CRUD operations for user data using Node.js and Express.js.
- Integrated MongoDB for storing and managing user information.

PROFILE

A dedicated and experienced web developer with 1 year of hands-on experience in designing and implementing user interfaces, developing servers and databases, and optimizing applications for cross-platform use. Skilled in front-end and back-end technologies, including HTML, CSS, JavaScript, React, Node.js, and MongoDB. Seeking to leverage expertise and passion for web development in a dynamic team environment.

WORK EXPERIENCE

Web Developer

Software Plus Solution Private Limited   2023| Present
(Olympia Tech Park , Guindy,Chennai)

- Design and implement the user interface of applications, ensuring responsiveness and user-friendliness
- Develop servers and databases to support application functionality, including MySQL
- Optimize applications for cross-platform use on mobile devices
- Coordinate with graphic designers to incorporate web design elements
- Oversee projects from initial concept to final delivery
- Create and implement APIs for seamless integration
- Stay updated on advancements in web applications and programming languages
- Manage WordPress websites, including content creation and optimization
- Collaborate with team members using Git and GitHub for version control

----

Projects Experience

MNT - (UPSC Coaching Website)   2023 Sep

- Maintained the MNT Free IAS website (https://www.mntfreeias.com/), a top UPSC free coaching website with over 1000 daily visitors. Implemented sliding effects using WordPress.
- Ensured the website's responsiveness and user-friendliness.
- Managed the servers and databases, including troubleshooting and optimization.
- Collaborated with graphic designers to enhance the website's design elements
- Implemented individual login and registration credentials for users, providing download file capabilities to enhance user experience and engagement.

Grand Sports Chennai - (E-Commerce Sports Store Development)   2023 Dec

- Created an e-commerce sports store for Grand Sports Chennai (https://www.grandsportschennai.com/), integrating Razorpay as the payment gateway.
- Ensured the website's responsiveness and user-friendliness.
- Developed servers and databases, including MySQL, to support the e-commerce functionality.
- Collaborated with the client and graphic designers to enhance the website's design.
